(解答例)

In order to improve the reading ability of the students, I think that the students should read an English newspaper, summarize the contents, and have presentations. It is important to keep in mind when using an English newspaper and letting the students choose the material, that students should think about why they choose the articles they do. By doing so, I think that students can express and communicate using familiar topics. By reading an English newspaper, students become interested in current events, and by summarizing, they will be able to see the effect of deepening their understanding of the contents. Using words that are easy to convey to others, they can make a presentation. (114 words)
