# The Osaka 8.8 Million Person Drill is carried out to Confirm and Rehearse our Disaster Plans

## ? What should I prepare before the drill? What should I do on the day?

- ! -Before the drill, think about your disaster plan, and prepare accordingly
- Rehearse your disaster plan on the day of the drill.

### <Examples of Things to Plan>

- Confirm evacuation areas and routes!
- Secure your furniture against earthquakes!
- Confirm your emergency kit and stockpile!
- Using tools such as NTT's Disaster Emergency Message Dial service, make a communication plan!

### <Things to Rehearse on the Day>

- Take cover under a table as soon as you hear the starting signal
- Check contents of the emergency alert mail or area mail
- Try eating some emergency food (Refill your stock after!)
- Review your plan based on what you actually tried doing, etc.

## ? What should I do if an earthquake actually occurs?

- ! During an earthquake, act to protect yourself first.

When an earthquake stops, evacuate immediately in preparation for any possible tsunami.

If an Earthquake Early Warning is issued, get under a table immediately!

When the earthquake stops, stay calm and evacuate with minimum baggage while walking!

In the area with a risk of tsunami or flood, evacuate to nearby hills, etc., paying attention to evacuation information!

Never return to your home until the tsunami warning or advisory is lifted!

**On the renovated site, Osaka Disaster Prevention Net, you can see evacuation center information and more, on a map as well!**

### Please register for the Osaka Disaster Prevention Information Mail!

It is vital to have several ways to access information to prepare for disasters. Osaka Prefecture delivers disaster prevention information such as weather information issued by the Meteorological Agency and evacuation information issued by local municipalities during disasters.
