

【Part C】

Eco-Tour

When you join a tour, you may enjoy sightseeing, eating foods, or shopping. However, an eco-tour is a little different kind of tour. The following things are the things the participants of an eco-tour should do.

1. Protect the local environment and respect the local culture
2. Learn through experiences
3. Contribute to the local area

For example, if you join an eco-tour, you may enjoy the wonderful nature with a local guide. You may stay with a local family and enjoy their culture. An eco-tour is a new kind of tour.
