

Declaration on "SDGs Japan Model"

We, local governments, hereby declare that we shall:

convey the "SDGs Japan Model" to the world, promoting collaboration between public and private sectors including companies and organizations, schools, research institutions and residents, towards finding a solution to social issues such as population decline and a super-aging society, and encouraging sustainable regional development.

create vitality and wealth in the region, promoting cooperation among local entities and spearheading partnerships linking public and private sectors in the region, with SDGs as a common goal.

tackle local challenges working with the private sector, through expansion of social investment and introduction of innovative technologies.

promote the SDGs with residents playing a leading role through dialogue with the next generation and realization of gender equality, striving for a society full of smiles.
